SUMMARY

Web and Shopify developer building for the web since 2015 – custom Shopify themes and apps, full-stack sites, and mobile apps for clients around the world. Every project ships tested, polished, and ready to grow with the business behind it. Also teaches application development at the university level.

SKILLS

Web: JavaScript, Next.js, TanStack, Tailwind CSS, shadcn/ui

Backend: Go, Python, Docker, Supabase, Railway, Coolify, Vercel

AI / Automation: n8n, Claude Code, Codex, Gemini

Shopify: Liquid, Hydrogen, theme & app development

Mobile: Flutter, Dart, Android Studio

Design / Tools: Figma, Photoshop, Illustrator, Postman, VS Code

EXPERIENCE

Shopify Developer · True Color Wholesale 2025 – Present

Delivering ongoing Shopify storefront development, along with internal accounting tools and AI automation that streamlines order management.

Full-Time Shopify App Developer · Nordlytica 2024 – 2025

Built and maintained custom Shopify apps for Markus Krag's Nordlytica, including a Sweden-based Shopify store and a startup web application connecting sport teams with sponsorship opportunities, through recurring standups over a 15-month engagement.

Web Developer · Ghonda Legacy Investments, LLC 2023

Delivered web development work on the SocksRock project for Napo Ghonda, joining after a signed offer in November 2023 and wrapping up the engagement later that same year.

Full-Time Web Developer · Ari Bikes (formerly Fezzari Bicycles) 2022 – Present

Longest-running engagement – bike builder tools, Bread Pay, and Klaviyo integrations for fezzari.com, carried through the 2024 rebrand to Ari Bikes and onto Shopify Plus.

Shopify Developer · Aesymmetric 2022

Built Shopify storefronts for agency clients including Fyrn, Oak Furniture Superstore, and Tori Belle as part of Alex Espinoza's Aesymmetric team.

Full-Time Faculty (Instructor 1) · Sorsogon State University 2020 – Present

Teaching Application Development and Enterprise Application in the BS Information System program under the College of Information and Communication Technologies. Also builds internal tools for the university, including a Document Tracking System and a campus library attendance monitoring system, and takes part in extension work with partner agencies.

Freelance Shopify & WordPress Developer · hijoe, Lara, Equipt Media 2020

Built custom Shopify theme sections for hijoe to match specs the base theme didn't support, engineered a live necklace-engraving preview for Lara's jewelry product pages so shoppers could mock up names before buying, and migrated Equipt Media's WordPress sites over to Shopify – freelance work found through OnlineJobs.ph.

Full-Time Instructor · ACLC College Sorsogon 2015 – 2020

Taught Web Programming, C++ & Java Programming, Database Management, and Data Structures & Algorithms across multiple semesters, earning a Very Satisfactory performance rating.

EDUCATION

Doctor in Information Technology · University of the Cordilleras, Baguio City, Philippines 2025 – Present

Master of Information Technology · University of the Cordilleras, Baguio City, Philippines 2016 – 2020

Bachelor of Science in Information Technology · ACLC College Sorsogon, Sorsogon City, Philippines 2011 – 2015
